

Signalling Record Society Photographic Catalogue

Section 1 – England, Scotland & Wales

Entries in the catalogue are in alphabetical order by signal box name; there is more than one entry for some signal boxes. Where the name was used by two pre-grouping companies the entries are ordered by company initials wherever possible.

The catalogue parts were compiled by different people and the company name is not noted against all entries and two entries with the same name may, or may not, be the same location! There are some other minor inconsistencies and changes of signal box name have not been tied in.

This catalogue is also available in six separate parts, the reference letter part of the catalogue number indicating in which the entry is also listed.

CB	Colin Betts	All UK	Part 4	B&W negatives
HT	John Howard-Turner	All UK	Part 6	B&W negatives
KB	Ken Booth	All UK	Part 3	Colour slides
SE	Ian Scrimgeour	England & Wales	Part 1	B&W negatives
SF	Ian Scrimgeour	Non UK	Part 5	B&W negatives
SS	Ian Scrimgeour	Scotland	Part 2	B&W negatives

Ireland is included in Section 2. Part 5 is available as Section 2.

Views are marked "Int" if they are interior, and "Ext" if they are exterior.

The Collection itself is now in the care of the Kidderminster Railway Museum who can supply copies of any of the pictures listed. The Society no longer supplies copies of these photographs direct and all requests must be directed to the Museum. Ordering information is shown on the Photographs page of the SRS web site at <http://www.s-r-s.org.uk/photos.html>
